

Friends of St Andrews Church – report to Walberswick Annual Parish Meeting

We have installed a new heating system with a screen in the church and put a carpet in the area of the Altar. We have two further projects in mind which need to be suggested to the PCC. We have not had any concerts so far this year as we need help on the day in this respect, and despite making this known and advertised it in the Village News, have not received any offers of help.
