Subject: Resignation

Dear Esme,

I am writing to communicate my resignation from Walberswick Parish Council, with immediate effect.

I love our village, and will of course continue events such as the carolling and the grotto which are not council activities. I have just accepted a new post as Head of School, and whilst I will always give my time to organise and be involved in community events, I certainly do not have it to waste giving thought to spurious and repetitive communications.

The backbone of Walberswick is of course it's community, those who contribute in a positive way, take part, and take on responsibilities. We will continue to do this, and more, though I cannot do it as part of a council which is fettered by events and vendetta from years ago.

Best Wishes,

Ray
