

Planning Advisory Group: Report to Walberswick Parish Council

Planning Application ref DC/18/5059/FUL

Replacement roof, Manor House, The Street Walberswick IP18 6UG

1 Opinion

The Planning Advisory Group has no objection to the proposal

2 Description

.1 Manor House lies within the Conservation Area on the north side of The Street at the junction with Manor Close. The two storey house has a single storey rear extension with a barn beyond, joined by a glazed link. The intention is to replace the glazed roof of the link with a solid horizontal roof incorporating two roof lights. No other changes to the existing arrangements are proposed.

3 Comment

.1 The location of the link is almost entirely concealed from The Street. Since the proposed roof will be confined to the extent of the existing construction there should be no discernable impact on the surrounding environment.
